training

Training Manager

Unleash a Culture of Learning

Train Smarter, Not Harder

Stop struggling with manual training processes and fragmented data. **Discuss Discus PharmaSuite Training Manager** empowers you to deliver a **modern, efficient, and compliant** training experience for your employees.

KEY FEATURES

- ✔ **Streamlined SOP Training:** Effortlessly manage employee training on Standard Operating Procedures (SOPs) for consistent knowledge transfer.
- ✔ **Interactive Assessments:** Utilize question-based assessments and online tests to gauge employee understanding and identify knowledge gaps.
- ✔ **Automated Certificates:** Generate training certificates automatically upon completion, saving time and ensuring documentation accuracy.
- ✔ **Real-Time Alerts:** Stay informed with instant notifications about training progress and completion.
- ✔ **Flexible Retraining:** Easily address individual needs with ad hoc training modules and targeted retraining programs.
- ✔ **Data-Driven Insights:** Track training completion rates, identify trends, and make informed decisions about your workforce development.
- ✔ **Detailed Audit Trails:** Maintain comprehensive records of all training activities for regulatory audits.
- ✔ **Scalable Multi-Site Management:** Adapt the system to manage training across multiple branches and locations with ease.
- ✔ **Granular Access Control:** Assign specific roles and permissions to ensure only authorized personnel have access to training materials.
- ✔ **Industry-Leading Compliance:** Meet all professional standards and regulatory requirements for employee training.

qms

Quality Management Software (QMS)

Achieve Flawless Quality: Discuss PharmaSuite QMS – Your All-in-One Solution

Maintaining exceptional quality standards is paramount in the pharmaceutical industry. Discuss PharmaSuite Quality Management Software (QMS) empowers you to achieve operational excellence with a robust, user-friendly platform

KEY FEATURES

- ✔ **Effortless Deviation Management:** Address deviations quickly and efficiently, minimizing impact on quality.
- ✔ **Proactive Risk Mitigation:** Identify and address potential quality risks before they become problems.
- ✔ **Seamless Change Control:** Coordinate changes across departments with a centralized platform, ensuring everyone is on the same page.
- ✔ **Effective CAPA Management:** Document, track, and close corrective and preventive actions for continuous improvement.
- ✔ **Streamlined Lab Investigations:** Facilitate thorough and efficient investigations for quality assurance.
- ✔ **Supplier Quality Control:** Maintain high quality standards throughout your supply chain.
- ✔ **Responsive Issue Resolution:** Address customer complaints and internal issues promptly, fostering trust and satisfaction.
- ✔ **Effortless Content Management:** Organize and manage all your quality-related documents in one central location.
- ✔ **21 CFR Part 11 Compliance Built-In:** Ensure your electronic records meet strict regulatory requirements.
- ✔ **Real-Time Visibility:** Stay informed with instant alerts and notifications.
- ✔ **Comprehensive Audit Trails:** Maintain detailed records for effortless audit compliance.

Greenbox - DMS

Centralize Document Management for Enhanced Control

Imagine a world where finding critical documents isn't a daily struggle. Greenbox -DMS by Discus PharmaSuite is the document management solution designed for the fast-paced world of pharmaceuticals. **Centralize, organize, share, track and access** all your documents, SOPs, and protocols with ease.

KEY FEATURES

- ✓ **Centralized Control:** Store, access, and manage all your documents in a single, secure location.
- ✓ **Enhanced Security:** Granular permission controls ensure only authorized personnel can access sensitive documents.
- ✓ **Role-Based Access:** Simplify document access by assigning permissions based on user roles.
- ✓ **Effortless Workflows:** Automate document review and approval processes with our built-in workflow engine.
- ✓ **Find Anything, Fast:** Powerful OCR and PST search capabilities let you locate documents instantly, even if scanned or embedded in emails.
- ✓ **Dynamic Forms & Flexibility:** Customize forms to fit your specific needs and manage document metadata for superior organization.
- ✓ **Version Control Made Easy:** Track document revisions and revert to previous versions if needed.
- ✓ **Simplified Site Management:** Streamline site provisioning for effortless content administration across multiple locations.
- ✓ **Seamless Integrations:** Enhance functionality by integrating Greenbox - DMS with your existing third-party applications.

Artwork Manager

Streamline Your Artwork Journey from Creation to Approval

Flawlessly manage your artwork lifecycle from creation to approval with Discus PharmaSuite Artwork Manager. Ensure exceptional quality and efficient collaboration with a powerful platform designed for any industry.

KEY FEATURES

- ✓ **Effortless Artwork Management:** Oversee the entire artwork process, from initial concept to final approval, with a centralized platform.
- ✓ **Customized Workflows:** Tailor workflows to fit your specific needs, fostering seamless collaboration between internal and external teams.
- ✓ **Centralized Asset Library:** Organize all your artwork assets in one secure, easily accessible location.
- ✓ **Data-Driven Decisions:** Gain valuable insights into your artwork creation process with comprehensive reporting and analytics.
- ✓ **Version Control Made Easy:** Track and manage different artwork revisions effortlessly, ensuring everyone is working on the latest version.
- ✓ **On-Screen Proofreading Tools:** Eliminate errors with intuitive on-screen proofreading capabilities.
- ✓ **Pixel-Perfect Accuracy:** Guarantee the highest quality standards with pixel-to-pixel comparison tools for artwork revisions.
- ✓ **Never Miss a Deadline:** Stay on track with automated reminders and escalation systems that keep everyone informed.

document
issuance

Document Issuance

Stop the Paper Chase: Automate Document Issuance with Discus PharmaSuite Solution

Manual document workflows are a thing of the past. Discus PharmaSuite Document Issuance offers a streamlined solution to **automate document creation, approval, and printing**, ensuring efficiency, accuracy, and regulatory compliance.

KEY FEATURES

- ✓ **Automated Workflows:** Simplify document creation and approval processes with a user-friendly system.
- ✓ **Customizable Attributes:** Organize documents effectively by assigning specific attributes to the document.
- ✓ **Built-in Approval System:** Ensure proper authorization of the document, before documents are printed and distributed.
- ✓ **Centralized Printing:** Control and streamline document printing processes from a central server.
- ✓ **Track and Trace:** Monitor copy and reprint counts to gain valuable insights into document distribution.
- ✓ **Detailed Audit Trails:** Maintain a clear history of all document activities for effortless audits.
- ✓ **Informative Reporting:** Generate comprehensive reports to track trends, identify inefficiencies, and ensure regulatory compliance.

scheduler

Schedule Manager

Empower Efficiency: Master Asset Management and Scheduling with Discus PharmaSuite

Maintaining efficient asset management and scheduling is crucial in the pharmaceutical industry. Discus PharmaSuite Schedule Manager empowers you to **optimize asset utilization, ensure regulatory compliance, and mitigate potential risks.**

KEY FEATURES

- ✓ **Centralized Planning:** Develop and manage detailed schedules for critical assets and processes within a user-friendly platform.
- ✓ **Proactive Asset Monitoring:** Stay ahead of maintenance needs with automated reminders and alerts, ensuring optimal asset performance.
- ✓ **Risk Mitigation at its Finest:** Identify potential risks associated with assets and implement strategies to minimize them, safeguarding product quality and operational efficiency.
- ✓ **Customizable Solutions:** Adapt the platform to your specific needs and workflows, ensuring scalability as your organization grows.
- ✓ **Accurate Tracking and Reporting:** Generate comprehensive reports on asset performance and adherence to schedules, providing valuable insights for data-driven decision-making.
- ✓ **Regulatory Compliance Made Easy:** Maintain compliance with industry regulations through robust scheduling and asset management practices.

spreadsheets

Spreadsheet Manager

Forget clunky spreadsheets and error-prone formulas! Discus PharmaSuite offers a robust data management solution that empowers you to **organize, analyze, and share data effortlessly**.

KEY FEATURES

- ✓ **Advanced-Data Management Made Simple:** Organize large datasets easily, ensuring efficient data manipulation and retrieval.
- ✓ **Customizable Templates for Every Need:** Create or utilize pre-built templates to streamline data entry and analysis for specific tasks.
- ✓ **Unparalleled Data Security:** Protect your sensitive data with robust security features, ensuring compliance and peace of mind.
- ✓ **Seamless Collaboration:** Share data securely across teams and departments, fostering collaboration and informed decision-making.
- ✓ **Powerful Built-In Analytics:** Gain valuable insights from your data with comprehensive analysis tools, eliminating the need for complex formulas.
- ✓ **Effortless Integration:** Integrate seamlessly with your existing applications for a unified data management experience.

Testimonials

As a highly regulated industry like pharma, we sought a solution that could comprehend our business intricacies, compliance requirements, and the needs of our end users. Greenbox has been our reliable solution for the past two years, efficiently handling our day-to-day IT operations with a focus on data backup, streamlined search capabilities, and email archival solutions. Greenbox understands the unique compliance challenges we face and provides tailored solutions to ensure our document management practices meet regulatory standards.

Sanjeev Jain - Vice President IT
Dishman Group

Flexible Software - Has all that is needed for our company User interface was easy to learn.

Alan Fischer - Director Technology &
Supply Chain Carbogen AMCIS-Switzerland

The software's flexibility truly meets all our company's needs, and our team found the user interface remarkably easy to learn. It's a comprehensive solution that combines functionality with user-friendly design.

Amish Parikh - IT Head,
Leading Pharmaceutical Company
