kriya

FOCUS ON STAYING PRODUCTIVE, NOT BUSY

- TIM FERRIS

WHY KRIYA?

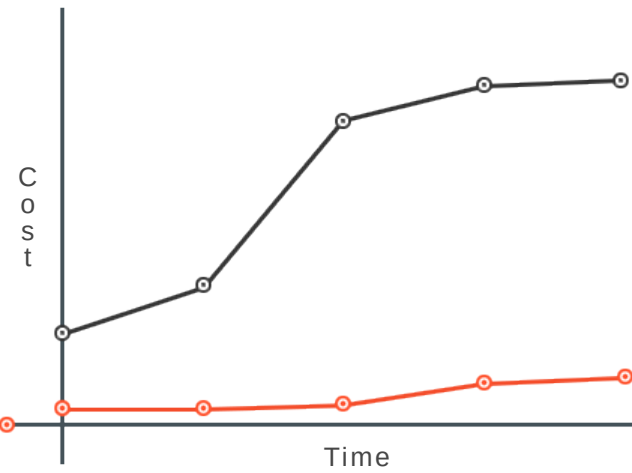

kriya brings together people, processes, and technology to reap full advantage of increased visibility and employee mobility across the organization.

kriya is a zero-coding-required rapid application deployment (RAD) platform created using business process management (BPM) and workflow concepts. It enables users to configure business processes in minutes and instantly deploy them to both desktop and mobile platforms - all without the need to understand software development. Analysts can forge new business applications or can choose from an existing library of readily available applications & processes.

kriya brings IT and governance methodologies together to generate valuable insights promptly. kriya improves the efficiency of the organization by identifying bottlenecks and highlighting areas of optimization, thus helping the decision-makers to define roles of their employees better.

Using kriya you will align IT and other business units with business goals, thus delivering excellent ROI. It is available as a cloud offering, driving maximum usability at low costs.

WHAT OUR CLIENTS SAY!

“Using Kriya is one of the best software decisions we have taken. It has totally changed the way we track our processes and communicate across organization.”

Nitin Panchal

IT - Administrator, AIA Engineering Ltd

“We were using multiple platforms across the company. We were using excel for task tracking, another for document approval, one for process tracking and few others for something else. With Kriya we now have all that information on one platform.”

Dr Harjinder Modi

Food Safety and Compliance Manager,
Olam International - PFB

“Kriya is a simple, user friendly software that never breaks down. We had implemented costly solutions before but nothing matches Kriya's prowess.”

Sanjeev Jain

Vice President – IT, Dishman Carbogen Amcis Limited
